

BMED380 Spring 2014 – Penum

Curriculum

- Participation at a minimum of 25 seminars in two semesters (attendance is registered at the seminars).
- General information meetings at the beginning of each semester.
- Submission of reports of two freely chosen lectures, one report per semester, written according to specified guidelines available on *My Space*.
- Individual meetings with the course coordinator to go through the corrected reports and a “performance form” filled in by the course coordinator when evaluating the reports.

Teaching material

- The lectures being held.
- Possible one-to-one discussions with the lecturers (who might also provide copies of their presentations, if desired).
- The abstracts of the lectures (given on the seminar programme webpage).
- The homepages of the lecturers (given on the seminar programme webpage), normally including descriptions of the research fields and lists of publications (otherwise, students are encouraged to seek information in PubMed).
