Lipid Biochemistry: from Chemistry to Diseases

Printed syllabus

- *Membrane and Structural Biology - With Biochemical and Biophysical Foundations*
Mary Luckey
ISBN 978-0-521-85655-3
- This textbook does not cover the whole course and students are advised to also procure this additional textbook:
Lipid Biochemistry: An introduction, 5th Edition- MI Gurr, JL Harwood, KN Frayn
- Review articles covering specific aspects of the course will be provided throughout the course

Remember that your syllabus might be accessible digitally through <http://www.uib.no/ub>. The University Library buys access to a lot of digital literature which is freely available for UoBs' students.
