Sammendrag av studentene sin evaluering / Summarize the results from the student evaluation

Majority of the students found the lectures and seminar were interesting, relevant, up to date. Overall the students were satisfied and they would recommend the course.
Several students replied that the workload was not very high.
Few students have mentioned that the exam was very difficult as they had to memorise programming code during the school exam.

Emneansvarligs evaluering / The course coordinator's evalutaion
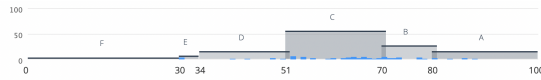

More exercises need to be included so that the students can develop their skill.
The difficulty of obligatory exercises may be increased.
printed materials should be allowed to use during the school exam as it is not crucial in real life to memorise programming syntax. As long as students can demonstrate their ability to construct programs to solve problems, it should be enough to determine the grades in the assessment.
