Emnerapport / Course report ved / at Infomedia #102

Emnekode / Course code	AIKI100
Emnetittel / Course title	Innføring i kunstig intelligens
Semester	Høst 2023
Emneansvarlig / Course coordinator	Rustam Galimullin
Sist evaluert (semester / år) / Last evaluation (semester / year)	Aldrig (tror eg)

Hva er emnets undervisnings- og vurderingsform? / What are the teaching methods and forms of assessment used in the course?
Teaching: lectures and seminars
Assessment: quizzes, obligatory assignments, exam

Oppfølging fra tidligere evalueringer / Follow up from previous evaluations
Could not find any previous evaluation

Sammendrag av studentene sin evaluering / Summarize the results from the student evaluation
Student evaluation is alright. Some criticism of the course being bilingual and that the seminar\quiz system is not super clear.

Emneansvarligs evaluering / The course coordinator's evalutaion
The course went fine. Here is something that would be great to improve for the next iteration(s) of the course.
1. Decide on single language so that students are not confused by Norwegian and English concepts.
2. Update obligatory assignments. I think that it is time to revisit the obligs and made them less time-consuming.
3. Difficulty level of lectures is not even. Some lectures are quite easy, while other are a bit beyond the introductory level. In particular, the lecture on knowledge graphs is the one students complained about a lot.
4. The whole situation with attending and not attending seminars and the requirement for quizzes is quite confusing. For me it is terra incognita, and it seems that everyone learnt how it works along the way. Maybe there is a way to make the system more straightforward, or communicate it to students better.
5. Since several lecturers are involved in the course, there is a not ideal cohesion between lectures. Basically, lecturers are not really aware of what the students know or don't know. This is understandable, and it is hard to think about an efficient solution. Maybe unified lecture notes would do the trick?

Evt. kommentar til karakterfordeling / Comments on the grade distribution
Looks alright, no one failed, quite a few A's (but not too many)

Mål for neste evalueringsperiode - forbedringstiltak? / Goals for the next evalution period - what can be improved?
