

MUTP302 emneevaluering 2011 vår

- Innledning
 - This course was offered for the first time since transitioning from the 2-years Master to the integrated five year Master in Music Therapy study program.
 - Oppfølging av eventuelle tidligere evalueringer: Does not apply.
- Faglærers vurdering av
 - Undervisnings- og vurderingsformer: Undervisningsformene i emnet har fungert tilfredsstillende. More focus on the relation between the obligatory literature and the lecture content progression will be necessary in future repetitions of this course.
 - Pensum: fungerte tilfredsstillende, men vi kan fremdeles forbedre dette.
- Studentstatistikk
 - Vurderings- og undervisningsmeldte: 6
 - Strykprosent og frafall: 0
 - Karakterfordeling
 - A 2
 - B 4
- Rammevilkår
 - Lokale og undervisningsutstyr: It was difficult to provide access for the students to the full range of instruments in the music therapy store (GA) held in a different building than in the one where the teaching/learning took place (Kulturskole).
 - Andre forhold: -
- Studentevalueringer
 - Metode – gjennomføring: muntlig og skriftlig evaluering ble gjennomført
 - Studentenes vurderinger og tilbakemeldinger: Reports available on MiSide. The link between the obligatory literature and the content of the lecture/workshop progression was unclear and needs to be addressed in future repetitions of the course. Overall, the students were satisfied with the course as a whole.
 - Faglærers kommentar: A slight re-design of the distribution of expectations between individual instrumental lessons in other courses will enable the future students to focus on the study of music improvisation in relation to the demands of music therapy.
- Andre merknader (for eksempel undervegstiltak)
- Faglærers samlede vurderinger, med eventuelle forslag til endringer:
 - This course is core to the development of the future music therapist. Whereby the course will gain from maturing the link between pensum and lecture structure and perhaps more collaborative sharing of the teaching load, the course has been successful in reaching the learning goals at a good level.
