Do you have any other comments with regards to the compulsory assignments/exercises?
- A lot of work with this course made it hard to spend enough time on the other courses
- A lot of good tasks
- The course is valuable because of the amount of practice in the huge amount of compulsory exercises. It is however far more work than any other 10 credit course i have ever taken anywhere (and I've been around UiB to say the least). This combined with two other courses of 10 points each represents much more than full time

work for most students, and this is not advisable when a majority of students have to hold down part time jobs (in adition to loans) in order to pay rent etc.
- VERY GOOD! :)

Do you have any comments on the educational arrangement (level, did you get enough help etc.)?

- would like more notes/code on MiSide
- Educational arrangement was good, it would however have been nice to divide the one 4 hour lecture into two 2 hour lectures to get better continuity with assistance and problems, since so much (challenging) work had to be done outside of class.

Hva syns du om forelesninger som blir gitt på engelsk?
- Betre å forstå det på engelsk enn viss det blir gitt på norsk, på grunn av begrep som brukes i dataverdenen
- No problem as long as the lecturer speaks clearly and not too fast.
- Så lenge foreleseren har en god muntlig engelsk gjør det ingenting. Foreleseren i dette faget snakket høyt og tydelig og det var lett å forstå han.
