FAGLÆRERNES VURDERING AV GJENNOMFØRING

Praktisk gjennomføring

The course consisted of a total of 16 meetings: 12 regular lectures and 4 seminars in which the students orally presented their work. The exam consisted of a term paper (*semesteroppgave*); students received advising on drafts of their papers.

Studentenes profil, karakterfordeling, strykprosent og frafall

This course is required of 2nd-year students in the bachelor program in musicology at the Grieg Academy, and is also open to other students at UiB (including exchange students, since the course is taught in English) as an elective course. Of 14 students registered at the beginning of the semester, 12 students completed the exam in the class and received a grade. As in previous years, the students in the course were about evenly divided between foreign exchange students and Norwegian students.

Final grade distribution:

A	3
B	3
C	5
D	0
E	1
F	0

Studieinformasjon og dokumentasjon

A copy of the study plan for the class plus the full description/schedule for the course (lecture topics, assigned reading for each lecture, paper assignment description and due dates) was passed out at an information meeting at the beginning of the semester. The study plan and course description/schedule were also available on the student portal *Mitt UiB*. Lecture materials (PowerPoint or Prezi slides) were also made available on *Mitt UiB* after most of the lectures.

Tilgang til relevant litteratur

The required textbooks were available at the campus book store *Akademika*, and copies of the textbooks were also available at the Grieg Academy Library. Selected articles were available either for free online (via the university library's subscription) or, for a small fee, via download from the online compendium (*Litteraturkiosken*).

FAGLÆRERS VURDERING AV RAMMEVILKÅRENE

Lokaler/undervisningsutstyr: The class was taught in the Prøvesalen in the Grieg Academy main building. The room was very large for the number of students in the class, and the lecturers had to remember to speak loudly. The PC and data projector worked adequately.

An anonymous online survey was created on *Skjemaker*, and a link to the survey was sent to the students from Mitt UiB, with two reminders. Despite the reminders, only 4 responses were received. See below for a summary of the results.

Summary of the students' comments:

Only 3 responses were received to question 21. The 3 responses were all very positive, although one mentioned that one of the lecturers talks very fast and that it was sometimes hard to follow him. (This may also be related to the size of the room, mentioned above.)

(Complete student responses are kept on file by the course-responsible person.)

Teachers' comments on the results:

Since only 4 responses were received to the evaluation survey, one should be cautious in generalizing from them. However, within those 4 responses, the scores and comments from show a quite high evaluation of the course, indicating that the students are satisfied with the course content, teaching and exam form. The scores throughout the survey represent an improvement from the previous year, indicating that students are increasingly satisfied with the course (though again, remembering that only 4 students answered the survey).
